

GOOD FOOD

GOOD FARMING

**TAKE
ACTION
FOR
FOOD JUSTICE**

The European Days of Action for #GoodFoodGoodFarming in October are an annual Europe-wide mobilisation bringing together farmers, civil society organisations, local communities, researchers, schools, municipalities and citizens around one shared campaign for better food systems.

Every October, hundreds of locally organised events take place across Europe. From farm visits and community meals to public debates, exhibitions, workshops, demonstrations and cultural events, each activity reflects the priorities and realities of its own community while contributing to a shared European campaign.
